

WHY INVEST IN THE TOPDUTCH AGRIFOOD INDUSTRY

As a small, densely populated country, the Dutch were driven to **optimize their agricultural yield, whilst still being committed to sustainable agriculture. Realizing unparalleled yields and becoming the world's second largest exporter of food, it may well be the Dutch who will guide the world on how to feed the 10-11 billion people that will inhabit planet Earth by 2040. Gaining a global leadership position in agriculture because of their strong focus on input, in the Netherlands we are now expanding our expert position and impact by maximizing value from output, creating the food, bio-based and circular value chains of the future. In the TopDutch region, we're growing a healthy future.**

AGRIFOOD

our offer:

**1. Dairy Capital
of Europe**

**2. Healthy Ageing
Capital of
Europe**

**3. Feeding a
healthy and
sustainable
economy**

**4. World-class
knowledge
& innovation
communities**

**5. Gateway
to EU market
& access to
talent**

How our AgriFood industry is growing a healthy future

1. Dairy Capital of Europe

We're building the most innovative, sustainable, remunerative and animal-friendly dairy chain in the world.

- Dairy Campus, part of AgriFood university Wageningen (WUR), spurs innovation with education and R&D.
- The Dutch physical environment has led to the optimal density of healthy cows.
- Our healthy cows produce exceptional nutrient-rich milk and have a high lifetime yield of optimized pregnancies and lactations.

2. Healthy Ageing Capital of Europe

We're performing groundbreaking research to increase human lifespan with healthy years through a healthy diet and lifestyle.

- Lifelines research cohort and biobank provides insight into the effects of lifestyle on health.
- Our R&D and innovation communities extract dietary building blocks for advanced nutrition.
- Our dedication to sustainable farming; protecting biodiversity; land, seed and crop quality and circularity keeps our environment, and us, healthy.

3. Feeding a healthy and sustainable economy

We're dedicated to feed-linking industries with sustainable building blocks for a healthy economy, and providing nutrients for the protein transition.

- AgriFood crosses over with: **Green Chemistry** by growing crops used as bio-based building blocks; **Energy** by using agricultural waste as feedstock for green fuels; **Digital Innovation** by developing smart tech to optimize performance; **WaterTech** by working together to develop agricultural water solutions; **Life Sciences & Health** by researching protein structures and healthy nutrition.
- As demand for plant-based protein is increasing, we're leading the **protein transition** by extracting valuable proteins from crops.

4. World-class knowledge and R&D communities

We have the best knowledge institutes and communities for cutting edge AgriFood innovation R&D.

- Our AgriFood ecosystem is home to major research campuses, innovation communities and pilot facilities.
- 12 of the 40 largest AgriFood companies have Dutch R&D facilities, and the Netherlands has the 3rd highest private AgriFood R&D investments in Europe.

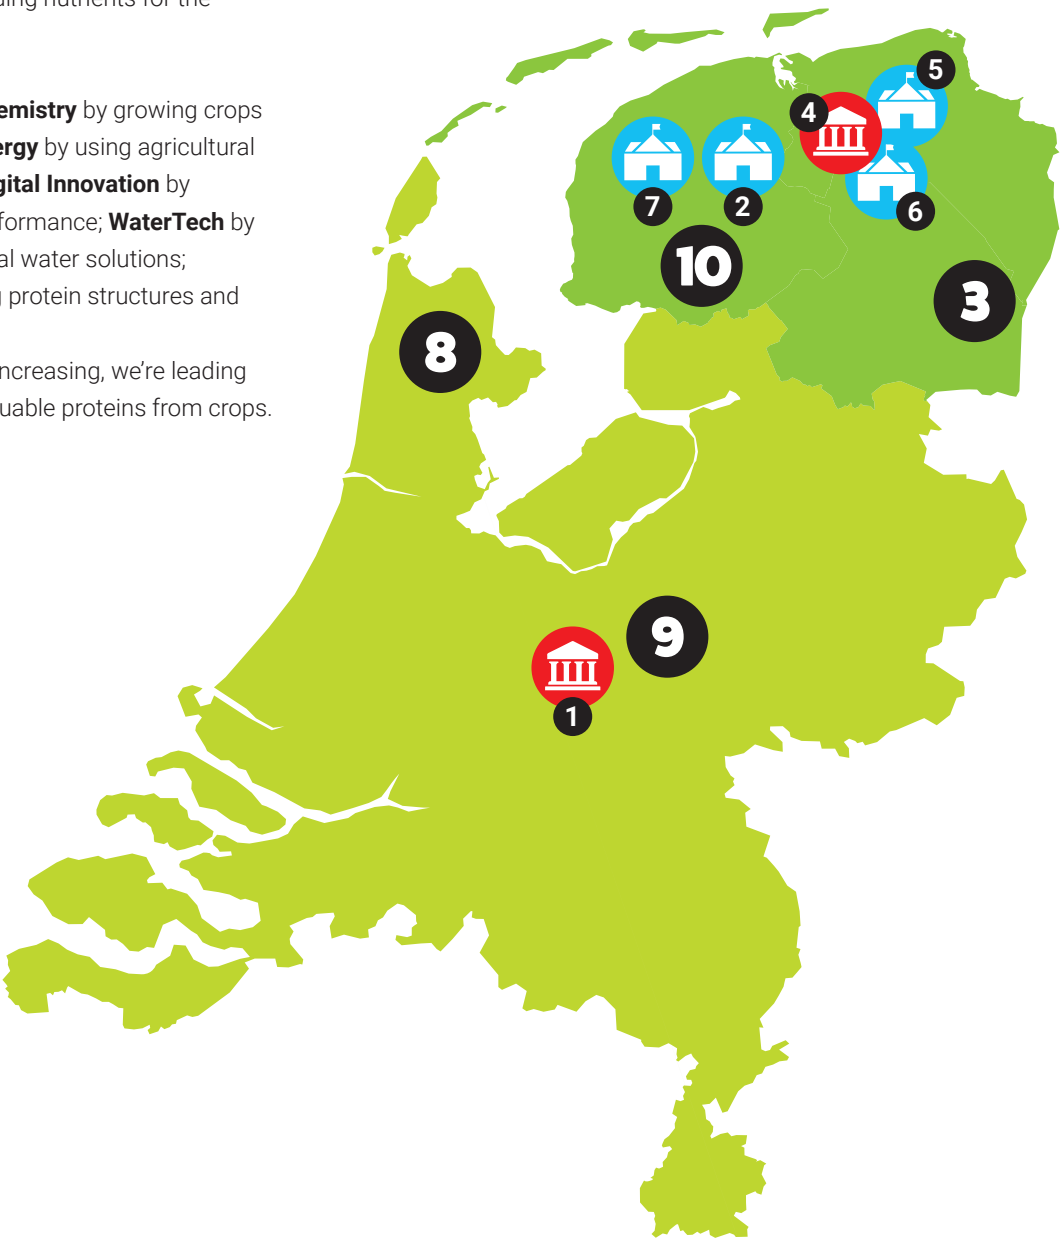

5. Gateway to European market and access to talent.

The Netherlands is the ideal gateway to the EU market and provides access to AgriFood talent at all levels.

- Our strong location provides direct access to 244M consumers within 1,000 km via our dense transport network.
- The Netherlands is the 2nd biggest agricultural exporter globally, aided by our excellent trade facilitation and fiscal environment.
- The TopDutch region provides access to AgriFood talent by providing world-class education at all levels, and attracting international talent with our innovation communities.

TopDutch AgriFood key locations
